#### ***Allowable Subject Matter***

Claims 14-29 are allowed.

#### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: with the latest amendment (filed on 19 September 2011), the instant claims are limited to DOPE and P80 as the only two amphiphilic components in the claimed composition. This amendment obviates the primary reference applied in the 35 USC 103 rejection of record, Liu, because Liu requires large quantities of the cationic lipid component DC-

Chol. Additionally, Liu provides no disclosure of a composition comprising DOPE and P80 as the sole amphiphilic components. Therefore, the claimed invention is novel and unobvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
